3OH!3, Still Around

go ahead and burn it down
im drunk and so is everyone else
in this devil town
they wont let me turn around
to get one last look at my baby,
well shes still around
well shes still around
well shes still around
well shes still around
go ahead and build it up again
this cities just cemetaries and forgotten,
in my only hopes to see you
and even if i never do
well shes still around
well shes still around
well shes still around
well shes still around
and i know what your thinkin
but that wont stop this drinking
its the least i can do
cuz this life is anything but certain
when they close the final curtain
youll get a glimpse of the truth
cuz your...
still around
well shes still around
well shes still around
well shes still around
go ahead and burn it down
im drunk and so is everyone in this devil town
