Alesso, Sweet Escape (ft. Sirena)

We drive so far to get away
Never look back
We don't care about nothing else
A sweet escape
Gotta break free, like a shooting star
Let the skyline guide us
We don't care about nothing else
A sweet escape
Feels like heaven, nothing can stop us now
We run away
A sweet escape
Nothing can hold us down
Just like a wave that never breaks
Nothing can stop us now
And if you fall, I'll pick you up
I'll follow you till the end of time
We run away, a sweet escape
Nothing can stop us now
Nothing can stop us now
Nothing can stop us now
All lights go out and fade away
Never lose faith, leave all of your fears behind
A sweet escape
Gotta break free, with an opened heart
Let the sunshine find us
We don't care about nothing else
A sweet escape
Feels like Heaven
Nothing can stop us now
We run away a sweet escape
Nothing can hold us down
Just like a wave that never breaks
Nothing can stop us now
And if you fall, I'll pick you up
I'll follow you till the end of time
We run away a sweet escape
Nothing can stop us now
Nothing can stop us now
Nothing can stop us now
