Adonis, Only Human

I don't need super human strength to pick
You up when your down, (no) cause a sense of humor
Will turn that frown into a smile, (and I don't have to) and I
Don't have to fly to make you feel like your on top of the
World (cause I) always let you know that your my one
And only girl,
[Chorus:]
I'm not the strongest man alive (like superman)
I wish that I could read your mind(I wish that I could read your mind)
And I can travel back in time (and I can travel back through time)
To stop the hurt and erase the lies, ooooh
I wish I had x-ray vision to see straight through to your heart but
I'm only human (only human) I'm only human
I'm just me, not no super man I do the best that I can cause
I'm only human (only human) I'm only human I'm just me me,
I don't need all the green to make you feel incredible (cause my love),
Cause baby my love for you is bigger than the hulk (hulk, hulk)
I don't need super human speed to be there for your needs,
(there for your needs) and I don't need a web to come down
To sweep you off of your feet ooooooooh
[Chorus:]
I'm not the strongest man alive (like superman)
I wish that I could read your mind(I wish that I could read your mind)
And I can travel back through time (and I can travel back through time)
To stop the hurt and erase the lies, ooooh
I wish I had x-ray vision to see straight through to your heart but
I'm only human (only human) I'm only human
I'm just me, not no super man I do the best that I can cause
I'm only human (only human) I'm only human oooooh,
I wish I had x-ray vision to see straight through to your soul,
I'm only human (but I'm only human) I'm only human (A!)
I'm not no super man I do the best that I can,
I'm only human (only human) I'm only human I'm just me,
There isnt a bird or plane a speedin train the biggest storms [?]
But I pour out my heart (ignite the flame) to be what you need
(to heal the pain)
There isnt a bird or plane a speedin train the biggest storms [?]
Pour out my heart (ignite the flame) to be what you need yeah
(to heal the pain)
I wish I had x-ray vision to see straight through to your heart
