Automatic, Night Drive

Do you think I'm immune to car accidents?
Do you think I'm immune?
I want to go straight to the end
I want to go straight to the end

Can you, hear me?
I'm shouting as I watch myself
I'm on the ground, it glistens like a clear night sky
Twisted, twisted, silent, motionless and red
Twisted, twisted, silent, motionless and red

Everything moves so fast
It's like my life before my eyes
Everything went so slow
For one moment I could fly

Can you, hear me?
I'm shouting as I watch myself
I'm on the ground, it glistens like a clear night sky
Twisted, twisted, silent, motionless and red
Twisted, twisted, silent, motionless and red

Can you, hear me?
I'm shouting as I watch myself
I'm on the ground, it glistens like a clear night sky
Twisted, twisted, silent, motionless and red
