Amy Macdonald, Down By The Water

Meet me down by the river
Meet me down by the sea
Hours and hours, and days go by
It's still a new way for me

I love the way your hair blows in the wind
I love the feel of my skin on your skin
Don't ever change, don't ever fall by the way
Cause I'll meet you down by the water again some day
Yes, I'll meet you down by the water again some day

I tried to call you but you didn't hear
Darkened feeling what you're doing here
Where's your baby, where's your girl?
Out in the water, out in the world

I love the way your hair blows in the wind
I love the feel of my skin on your skin
Don't ever change, don't ever fall by the way
Cause I'll meet you down by the water again some day
Yes, I'll meet you down by the water again some day

Wait for me down in the water /4x

Cause I'll meet you down by the water again some day
Yes, I'll meet you down by the water again some day
Yes, I'll meet you down by the water again some day
