

Keith Urban, Straight Line

Why we livin' every day in circles
Just burnin' out, burnin' out
I don't wanna just go through the motions
Goin' 'round and 'round
It's takin' us down
I ain't buyin' this life's gotta be such a mutha (Oh, ohhh)
'Cause we kinda got it all when we got each other (Oh, ohhh)
You and me used to be like a year-round summer (Oh, ohhh)
Let's go back
Hit the gas

In a straight line, baby
Hey, whatcha say, we're never gonna look back now
Can't you see the sun shinin'
You and me drivin' out from under this dark cloud
Wanna know what they mean
When they say, "Life's a dream"
Shouldn't we be dreamin' it too?
In a straight line, baby
Startin' now, takin' a straight line
Straight into forever with you
With you
