Bad Habit, More Than I

Lying here beside you
Feeling your heart beat with mine
Holding you, touching you
You're so fine

Let's enjoy tonight and let't not waste
Tomorrow it might be too late
For everything we have
And I owe my life
Do you know you're always on my mind
I never could stand losing you
Cause no one loves you more than I

Now that I have found you
You are the light of my life
Wanting you, needing you all the time

Let's enjoy tonight and let's not waste
Tomorrow it might be too late
For everything we have
I owe my life
Do you know you're always on my mind
I never could stand losing you
Cause no one loves you more than I

And I owe my life
Do you know you're always on my mind
I never could stand losing you
Cause no one loves you more than I
No one loves you more than I
