Deftones, Nosebleed

No means no lie now find out what you get - you're no good
You'll sit around and throw a fucking fit
We are here onto you
You're so far - you're fucking gone
You won't get to me till you cover me
I don't need this shit till you cover me
No means no lie now find out what you get - it's all good
You'll sit around and throw a fucking fit
We are here onto you
Give me more - you're fucking liar
You won't get to me till you cover me
I don't need this shit till you cover me
We are here - Mother - in your fear with you
We could be perfect in your world I know
But I will come, I will come, and I will come Go!
I will come, I will come, and I will come
I will come, I will come, I will come, I will come
Disapear, Disapear, Disapear, Disapear
You won't get to me till you cover me
I don't need this shit you fucking liar
