Bleached, Dead In Your Head

Time to think about what you are
'cause you know baby it's gonna catch you hard
Time to figure out, what it all went wrong
'Cause you know baby it's gonna catch you so hard.
So hard.

I never wanted to lose the boy I love the most /4x

When you lie alone night, do you start to dream about
All the things, all the things dead in your head.
When you lie alone night, do you start to dream about
All the things, all the things dead in your head.

Time to think about what you are
'cause you know maybe it's our time and that was all
Time to figure out, what it all went wrong
'Cause you know baby it's gonna catch you so hard.
So hard.

I never wanted to lose the boy I love the most /4x

When you lie alone night, do you start to dream about
All the things, all the things dead in your head.
When you lie alone night, do you start to dream about
All the things, all the things dead in your head.
/2x

All the things, all the things dead in your head /4x
