Chemia, Let Me

In my eyes
Everyone try to be someone new
Everyone love is the only true
Everyone knows more that’s all they says
In my eyes
Silence is a sign in a
…
Give from the hearet
That’s so many colors
But all they say is all the same

So let me breath
When I’m still here on my own …
Don’t mess around
I go, where I want to go

Weak has guns
And we know their fault
…
Difference and .. is all I say

So let me understand
The quality of soul
I don’t believe in heaven
… it’s a mission
To carry out my
To carry out my
To the day I begun

So let me breath
When I’m still here on my own …
Don’t mess around
I go, where I want to go
So let me breath
When I’m still here on my own …
Don’t mess around
I go, where I want to go
Far away
Far away
Far away
