Mary J. Blige, Slow Down

Slow down baby. The lovin' ain't goin' nowhere.

[Chorus]
Don't rush baby. The lovin' ain't goin' nowhere
Slow down
Don't rush baby. The lovin' ain't goin' nowhere
Slow down

[Verse 1]
When we make love
Baby all we got to do is take our time
And get it, get it right in the groove

Now there's no need for us to be
In a rush so slow it down
Slow it down and get it right.

Now baby it's understood
When the lovin' is feeling good
So let's just take our time and make it last

[Chorus]

[Verse 2]
Now I got a feelin' baby
That tonight could be the night
Don't rush it. Don't fight it.

If you got a notion
Baby please let it be slow motion
Slow it down baby. Keep it right there. Keep it right there.

Now baby it's understood
When the lovin' is feelin good
So let's just take our time and make it last

[Chorus]

[Ad libs and Chorus until fade]
