Megadeth, Never Walk Alone... A Call To Arms

Hiding in any doorway
In any shadow
Any place where danger waits to kill my time
There is one who lies and waits
To seal your fate
As sure as you live and die

Live and die
Live and die

When you feel there's something wrong
I shelter you and keep you warm
I never let you walk alone
I loved you when you still hated me
I'm coming and I won't be long
Time to reap what I have sown
Never ever let you walk alone
I know your enemy once was me

(solo - Glen)

Let me wrap my arms all around you
Suffer the trespasses that you made
I will drink your pain away
Forever and a day
If you just call out my name

If you just call
Out my name

If you just call
Even whisper it

When you feel there's something wrong
I shelter you and keep you warm
I never let you walk alone
I loved you when you still hated me
I'm coming and I won't be long
It's time to reap what I have sown
Never ever let you walk alone
I know your enemy once was me

(solo - Glen)
(solo - Dave)
(solo/solo)

When you feel there's something wrong
I shelter you and keep you warm
I never let you walk alone
I loved you when you still hated me
I'm coming and I won't be long
It's time to reap what I have sown
Never ever let you walk alone
I know your enemy once was me

When you feel there's something wrong
I shelter you and keep you warm
I never let you walk alone
I loved you when you still hated me
I'm coming and I won't be long
It's time to reap what I have sown
Never ever let you walk alone
I know your enemy once was me

Ohhh
