Glenn Hughes, The World Is Broken

Jamie wears a pistol, she's walkin' with her gun
She's sleepin with a crystal by her side
Andy, he's a rider, a rider 'til he die
He will ride the planet one more time

The world is broken
The world is broken

There's a hole in the river
There's a hole in the sky
As I turn my face to the sun
There's a full moon risin' for the third time today
The universe has come undone

Billie is a lifeguard, he sure do love the sun
He will be my brother all my life
Roger, he's a surfer, surfer #1
He's gonna ride the big wave one more time

The world is broken
The world is broken

Cindy, she's a joker, she was born that way
I can see her smilin' on the moon
Lol, he is a poet, how beautiful the noise
He'll live the final chapter one more time

The world is broken
The world is broken

The world is broken
The world is broken

The world is broken
Broken on me and you
