Jennifer Lopez, What is love

Nana nana nananana nanana nananana nana (x2)
People told me i should write a love song
Girl you sound so angry
You could use some variation
But i'm lonely
Negative relations
I been hurt so many times
I don't have the patience
But i wish, for so long
For someone to come and show me, me by example, coz i've been waiting
I've tried every age
I'm so tired of the game
I wanna be somebody's girl
Would you show me the way..
What if,
I never find and i'm left behind
Should i keep hopin for love
What if,
I'm still the same,
Status doesn't change
Gotta keep hopin for love
What is love?(x3)
Somebody show me
What is love?(x3)
Cus if you told me
What is love?(x3)
I wouldn't be lonely
What is love?
Please show me..
What is love?
I've had blind dates
Hooked up with some real flakes
I've gone out with church boys, musicians are the worst
I've tried so hard
Coz i'm just so die hard
Try my best to play the part
Wish you could see inside
But i wish, for so long
For someone to come and show me, me by example, coz i've been waiting
I've tried every age
I'm so tired of the game
I wanna be somebody's girl
Would you show me the way..
What if,
I never find and i'm left behind
Should i keep hopin for love
What if,
I'm still the same,
Status doesn't change
Gotta keep hopin for love
What is love?(x3)
Somebody show me
What is love?(x3)
Coz if you told me
What is love?(x3)
I wouldn't be lonely
What is love?
Please show me..
What is love?
Nana nana nananana nanana nananana nana
What is love?
Nana nana nananana nanana nananana nana...
I've been alone for the past three years on valentine's day
Christmas is no exception

Birthday's with naughty presents
Been back n forth, same action
I just need this to happen
I've been singin love's praises
If you would show me..
What if,
I never find and i'm left behind
Should i keep hopin for love
What if,
I'm still the same,
Status doesn't change
Gotta keep hopin for love
What is love?(x3)
Somebody show me
What is love?(x3)
Coz if you told me
What is love?(x3)
I wouldn't be lonely
What is love?
Please show me..
What is love? (x9)
