Phoenix, Sometimes In The Fall

Go out and tell the society
The talk of the town is on its way
This is not bad only serious
Do understand, don't turn your back on me Doesn't matter heads or tails People know my sins, I'm

Sometimes in the fall, fall, fall, fall
There'll be nothing to keep you far from me Before I am long long long gone There'll be nothing to k

Every night at seven o'clock
Every day at six in the morning too
People calling me up here
Didn't even take some time to look at them I'm long gone If you're walking around then I'll go out to

Sometimes in the fall, fall, fall, fall
There'll be nothing to keep you far from me Before I am long long long gone There'll be nothing to k

And it goes on and on and on, it's everlasting It's always the same when you're next to me Sometim

Long gone
Many eyes to see for me
Only yours to cry on my ashes
Long gone
It's the darkest night and I'm far from you Youve been awake all night He's a Nobel Prize I said Too

Sometimes in the fall, fall, fall, fall
There'll be nothing to keep you far from me Before I am long long long gone There'll be nothing to k

And it goes on and on and on, it's everlasting It's always the same when you're next to me Sometim
