Kazami, You

oh, you know
you know what to say
say "I love you"
oh, I think you've go to know right away
"maybe me too"
you
you are a nice, cool breeze in me
I feel you blowing in
I can feel the sunlight all around me
You're shinning
I feel beautiful when I'm around you
I'm safe and comfortable
'cause you are wonderful
it feels natural to be around you
you've made it possible
you're wonderful
oh, can I
can I tell you why
why I need you
oh, my life
you made it a cloudless sky I can fly through
you
you are a deep, strong wind in me
I feel you - come on in
can you see the sunlight all around me
You're smiling
I feel beautiful when I'm around you
I'm safe and comfortable
'cause you are wonderful
it feels natural to be around you
you've made it possible
you're wonderful
