Free For Fever, Wiseman

I never met a wiseman

If so that was a woman

Let's do the wild thing

Let's do it bad

Searching for something

We never had

Supernatural feeling

Takes you to the other side

Other side of knowledge, baby don't you want to try?

No seek and hide

Guess what he told me ?

Maybe tonight, maybe tomorrow

You will find the sign beyond the shadows

Maybe tonight, Maybe tomorrow

You will change your mind, forget your sorrows

Wiseman in the mountain

Wicked, wicked as a mofo plan in the name of love

He showed me the real thing , bad thing , sad thing

Peace pipe, magic mushroom

From the outer space

Then I saw through my life

Superficial state of mind

I went down on my kness, was scared to die

Then I realise, I was crying like a man

Maybe tonight, maybe tomorrow

You will find the sign beyond the shadows

Maybe tonight, Maybe tomorrow

You will change your mind, forget your sorrows

Wiseman in the mountain

Have you ever danced with the devil?

I never met a wiseman

If so, that was a woman

Wiseman in the mountain
