Scorpions, We Let It Rock...You Let It Rock

We come to you through a storm of lightning
To drive this place totally insane
Another show that really keeps us fighting
For what it takes to blow your mind away
Hey you, are you ready for tonight
Can you hear me now
Let me hear you too
We come to you through a wall of thunder
Electrified by the sound of the guitars
Hey you, are you ready for tonight
Can you see me now
I wanna see you out there
We let it rock to free your energy
You let it roll, come on get on your feet
We let it rock to feed your hungry dreams
You let it roll, up to the ecstasy
We come to you through a burst of fire
Energized by the feedback of the crowd
Hey you, are you ready for tonight
Can you feel me now
Can you feel the groove
We let it rock to free your energy
You let it roll, come on get on your feet
We let it rock to feed your hungry dreams
You let it roll, up to the ecstasy
