Hypocrisy, Abducted

In 1994
Something else took control
They came to grab me into my room
as I was sleeping in my bed
They move fast
Watch over your thoughts
to doubt that it wants in
and try to stay in my brain
Suddenly I was in another room
Terrified, cannot scream, cannot move.
Paralyzed with fear
Where am I?
Is this the end?
For this is happening to me?
Some say it's the chosen one
I have been through what they like.
I knew they would come.
I must have fainted
'cuz when I woke up
They were all gone
WHAT'S GOING ON?!
Now when I look back, I remember
I could not move or scream.
the fear, lost all feeling
Will they ever leave me alone?
