

# 10 Years, Frailty

Discomposed as a whole  
A kindred gift  
Barely possessed  
Struggles with lack of control  
Meet our mistakes, and put on display  
Stone me like a martyr  
Making it much harder  
Time just might beat out my will to overcome

Envious  
A simple touch  
All of this longing  
Hollowed out longings of chimera

Bend and fold  
Reform the shape  
Force into place  
Cant uphold  
Devouring the author weakening their order

Envious  
A simple touch  
All of this longing  
Hollowed out longings of chimera

Envious a simple touch  
Hold tight  
Why is this even questioned at all  
Why is this even questioned at all

Turning around, crawling with vengeance,  
Tempt me  
Tearing around tearing it out  
Frailty  
Tearing around tearing it out  
Frailty
