The Cure, A Sign From God

You know I'm sorry if you misunderstood
But your confusion is a bit overdone
I was only in to do it some good
I was only in to have some fun
I went out of my way to get this bad
And you still don't get how far
But now I'm back! I'm new!
And it's a wonderful thing
But you still don't get how things are...

Not superstition - I'm talking hideous kinky
No not religion - I'm talking serious oobe
Not science fiction - I'm talking horrible freaky
Yeah all the stuff you don't believe in
Well that stuff is for real

Got myself a change of life
Got myself a change of style
Got myself a new direction
Got myself a reason why
I just fell right out of my face one day
And I took it as a sign from God
And now I'm feeling good
And I'm moving up
And I've got to do it now

Yeah I'm sorry if you misunderstood
But your condition is a touch overplayed
I was only in to do it some good
I was only in to get it made
I went way out of my way to get this bad
And you still don't get how far
And now I'm back! I'm new!
And it's a wonderful thing
But you still don't get how things are...

Not superstition - I'm talking hideous kinky
No not religion - I'm talking serious oobe
Not science fiction - I'm talking horrible freaky
Yeah all the stuff you don't imagine
Well it's happening to me

Got myself a change of life
Got myself a change of style
Got myself a new direction
Got myself a reason why
I just fell right out of my face one day
And I took it as a sign from God
