Underworld, Underneath The Radar

Unknown
Unseen
We live underneath the radar
No sign - on screen
We dance underneath the radar

Between the walls - well hey
We're just too small to make a fuss about it
Did something fall? well hey
What is the point in losin' sleep about it?

See ya later - see ya later
Hip-a-no-no-no-no
Hip-a-no-no-no-no
See ya later - call me

We dance underneath the radar
We live underneath the bomb
When you live underneath the radar
There's no way that you're ever gonna get far

We kiss underneath the searchlight
We live underneath the bomb
When you live underneath the radar
There's no way that you're ever gonna get far
(So get hip!)

HA-HA-HA-HA-HA-HA-SO-GET-HIP

We speak
Unheard
Like ants we dance between the towers
We sleep
They move
Come sailin' over the horizon

Between the walls - well hey
We're just too small to make a fuss about it
Did something fall? well hey
What is the point in losin' sleep about it?

See ya later - see ya later
Hip-a-n-now-now-now
Hip-a-n-now-now-now
See ya later - call me

We dance underneath the radar
We live underneath the bomb
When you live underneath the radar
There's no way that you're ever gonna get far

We kiss underneath the searchlight
We live underneath the bomb
When you live underneath the radar
There's no way that you're ever gonna get far
(So get hip!)

HA-HA-HA-HA-HA-HA-SO-GET-HIP

(HA-HA-HA-HA-HA-HA-SO-GET-HIP)

He says I am the doctor -
In a B-52

I come across the horizon -
Drop my love on you
I'm gonna W-O-O-O-O-O ya all - Watch out!
I'm gonna W-O-O-O-O-O ya all
See ya later!

See ya later - see ya later
Hip-a-n-now-now-now
Hip-a-n-now-now-now
See ya later - call me

We dance underneath the radar
We live underneath the bomb
When you live underneath the radar
There's no way that you're ever gonna get far
So get hip!

HA!
HA-HA-HA-HA-HA-HA-HA-HA

(All the best)
