'N Sync, Are You Gonna Be There

If I was down
Would your arms lift me up
to higher ground
With just the strength of your love

If I was lost
Would I find something in your eyes to lead me home

And if it all went wrong
Would you be there to hold
It's easy to be there through the good time
But when the times get hard
Would you stay or walk away

(CHORUS)
Are you gonna be there when the rain comes
Are you gonna be there with a warm touch
Can you swear you'll be there with a real love
Are you gonna be there
Will you stand by my side through the bad times
Through whatever will be will you still be mine
Will you stay in my life for a lifetime
Are you gonna be there
When I need someone to hold
Someone there for me
Are you gonna be there

Be in my world
If it should all fall down
Will you be there
Be there to turn it around
Will you still care
Can I depend on you to see me through this life
And if it all goes wrong
Will you still make it right
It's easy to be there through the good times
But when the times get hard
Will you still be on my side

(CHORUS)
There with the arms to hold me
There with the love I need
Will you be there
Heart and soul I need to know

Are you gonna be there
Are you gonna still care
Are you gonna be
Will you stay by my side
Are you gonna be mine
Are you gonna be there

(CHORUS X 2)
