Ziggy Marley, Never Deny You

All the love that we shared
Could never just disapear
And all that we've been through,
I believe in you....

III, will never deny you..
III, will never deny you..
III, will never deny you.. (chorus)
III, will never deny you..

..friend said to me one day,
I should just forget you,
But my experiance say...
What we have is true..

Judases, they will betray you,
Thomases, they will doubt you,
Peters, they will deny you,
but iii will never deny you,

All the love that we shared
Could never just dissapear
And all that we've been through
I believe in you

(chorus)

(will never deny you) I wil never deny you
(never deny you) III, will never deny you (deny you)
