MARTIN ROLINSKI, Golden Rays

What we are, what we are
We?re the golden rays of summer rain

You and I where made to fly
Into what we hold inside
High beyond the molten sky
I swear that we won?t be denied

Let us find the hidden path
We can find our secret room
Far from all the hollow laugh
That echoes only doom and gloom

Looser, fool is what their saying
It?s all a masquerade
I won?t let you down

Woooh, oooh
What we are, what we are
We?re the golden rays of summer rain
Woooh, oooh
Won?t be long, won?t be long
Till the golden rays of summer rain

No one can control our fate
The world is ours lets make our move
You?re my love my soul mate
Lets fall into a deeper grove

I will never leave your side
Love like this is meant to be
My hearts always open wide
You?re my truth my destiny

Looser, fool is what their saying
It?s all a masquerade
I won?t let you down

Woooh, oooh
What we are, what we are
We?re the golden rays of summer rain
Woooh, oooh
Won?t be long, won?t be long
Till the golden rays of summer rain

We will never let them pull us down
We?re too strong
This is where we have to draw the line
We shine

Woooh, oooh...
