Puffy AmiYumi, ??????????????

The cherry blossoms bloom
A new wind blows
I had forgotten that I can be brave until I met you
your soft hair streams in the wind
I listen to your warm voice
I tremble as tears fall
The clouds that you havevreated are now clearing up

Love doesn't go as easy as some say

So touch me and make sure
Insted of giving me your vague words

The cherry blossoms bloom
and bring the sweet sweet season
We touch each other and understand
you and me all the way
Come to my house all the way more
You and me all the way come to my house
