Against All Authority, We Don't Need You

Don't ask for what I won't give, yeah
Watered down rebellion to sell to the kids, well
I'm frustrated 'cause I keep myself down
But I've been moved by the movement and possessed by the sound, and...

We don't need you
(We don't need you)
The meaning gets lost in the translation and I can't explain it to you

We don't need you
(We don't need you)
The meaning gets lost in the translation and I can't explain it to you, go!

Your motives, you can't hide
Because I've seen it before and it's like the rising tide
And you say I'm stuck In the sand
Plain basement shows across the land

We don't need you
(We don't need you)
The meaning gets lost in the translation and I can't explain it to you

We don't need you
(We don't need you)
The meaning gets lost in the translation and I can't explain it to you, go!
