Morten Harket, Scared of Heights

I have always been the type
to think before I speak
I have always been the type
to look before I leap
Like a bolt out of the blue
I was struck & there was you
For a moment I believe that I could let go

You lift me up into the sky
feels like I could fly
Never gonna die
& I almost made it but not quite
Now you're flyin' out of sight
& you know I can't come with you
'cause I'll always be scared of heights

I didn't think I'd meet someone
who made me change my ways
Never thought I'd find someone
who'd brighten up my days
Someone who made me forget
my hands were tied,
my wings were clipped
Someone who made me believe
that I could let go

You lift me up into the sky
feels like I could fly
never gonna die
& I almost made it but not quite
You're flyin' out of sight
& you know I can't come with you
I'll always be scared of heights
scared of heights

I Wish I never knew how great it feels up in the air
Wish I never got to feel the wind blow through my hair
Well in my dreams you'll always be
flyin' high along with me
in my dreams I'll always feel like that I can let go

you lift me up into the sky
I feels like I could fly
I'm never gonna die
& I almost made it but not quite
Now you're flyin' out of sight
& know I can't come with you
'Cause I'll always be scared of heights
I'll always be scared of heights
