Alphaville, State Of Dreams

Woke up at the break of day
Something chased my dreams away
Isnt it quite strange the way we live
Youre so pretty, youre so sweet
I like to watch you in your sleep
Id give a million if I knew your name
And all I need is to be with you
In a state of dreams - a state of dreams
Thats where I want it to be with you
In a state of dreams - a state of dreams
Love is such a fractured thing
Its splinters slither in our skin
Isnt it quite strange the way we play
Turn off the lights and come to bed
Forget the dreadful things Ive said
Lets wait until the stars come up and we will go our way
Cause all I need is to be with you
In a state of dreams - a state of dreams
Thats where I want it to be with you
In a state of dreams - a state of dreams
Woke up at the break of day...
Something chased my dreams away...
