Neil Diamond, But That Was Yesterday

I thought this love of ours
Was here to stay
Your heart was true when love was new
But that was yesterday

Our love was warmer than a summer day
And ev'ry kiss told of our bliss
But that was yesterday

Yesterday's memories
Bring today's sorrows
Now that you're gone from me
We share no tomorrows

I still remember
Dear, the plans we made
You always said "Some day we'd wed,"
But that was yesterday
