Prodigy, Diesel Power

Yo, I used to check out lyrics upon the format
Build with skill with technique. Computer A-DAT
My lyrical form is clouds on your brainstorm
I get hyped, think, thought flow
Acrobat, sync the track, pump the track
Dance missions, close (clubs??) like spores react past (by??) strong visions
And hurrying more reflects on the dancefloor
Blowing up (Flow it up??) and having mad people showing up
Packing crowds, jam-packed venues
Needles collapse, while atmospheres continues
Sprinkle that,
Winning like that, moving like that, hitting like that
The melody is fat (phat??)
Yeah, I'm on the energy source
The cosmic boss
With Prodigy
Different astrology
My intellect's devour (the power??)
With Diesel Power
Blows your mind drastically, fantastically
Blows your mind drastically, fantastically
Blows your mind drastically, fantastically
Blows your mind drastically, fanta..
We spin back rewind-Diesel Power
Blows your mind drastically, fantastically
It has to be, automatically
Check it out. You better work it out
Change to another route
My techniques, strategies, abilities.
I leave cords of mikes hanging like spring leads
You would try so fast, beyond the human eye,
Lyrical tactics, vocal gymnastics
Ease (E's??) and pepped up
You get scrapped up
Smacked up, backed up, your crew's all cracked up
Checking flow
Pick choose, quick
You can't stick
My medical brain's a stranger's angles
You get tangled. Twisting side effects us
Channels repeat, complete. Can't complete
Check that our texture
Mind adventure
Exploit the point
It attracts to devour
My intellects proceed
My diesel power
Blows your mind drastically, fantastically
Blows your mind drastically, fantastically
Blows your mind drastically, fantastically
Blows your mind drastically, fanta...
Back attack and whack patch
You're faxing me
You don't want none
High-quality acts should still be standing
Damaging your other manic
Quick reverse
Potent as the first verse
My amplifier blows on your worlds, higher
World's sire
Cuts like a barbed wire
Record-play
I pull up on you every day
Fast-forward

I move and I swings toward
Exit-load
Put your brain in right mode
Selected mix
The man will perfect the fix has lightly.
Bite me
Copy Xerox (zimmers??). Cops' handblocks
You can't knock some out there
I'll keep lifting, shifting, persisting
Intelligent kingpin
Keepin' astrology
As I roll with Prodigy
With Diesel Power
Blows your mind drastically, fantastically
Blows your mind drastically, fantastically
Blows your mind drastically, fantastically
