

# 10CC, Overdraft In Overdrive

I got a letter this morning  
My overdraft's in overdrive  
They wanna know what I'm gonna do about it  
How I'm proposing to survive  
Stay alive stay alive oooh  
They want the money  
so I work and work and work .....

They're making me roast  
The cheque's in the post  
You needn't worry worry worry....  
You hit the roof when I'm on the floor  
Did I ever let you down before

I got a letter from my broker  
He say he broker than me  
My silver mine has tarnished over  
I'm on the road to tragedy  
Help me, help me, oooooh  
I need the money  
so I work and work and work.....  
I'm deeper in debt, I'm covered in sweat  
You make me worry, worry, worry....  
This nightmare's giving me the shakes  
Hope I wake and find it's all a mistake

I started with nothing, and worked my way down  
I know the things that I do, they mystify you  
It's a strange way of living  
But I like playing with fire  
I'm always walking the wire  
And when the tightrope snaps  
You'll see my world collapse

I got a letter this morning  
Must be my lucky day  
Seems I've inherited a fortune  
Rich Uncle Sam passed away, away, away, oooooh  
I'm in the money  
No more work and work and work.....  
My banker's aghast, I'm dripping with cash  
No need to worry, worry, worry.....  
You need an angel to survive  
An overdraft in overdrive
