Ash, Out Of The Blue

Not feeling, broken hearted
Feeling just like when it started
I awake, it's a new day
No more heartache
Breaking away

Out of the blue, into the slipstream
Out of the blue, into the slipstream
Out of the blue, into the slipstream
Out of the blue, into the slipstream

Sky blue, nothing to lose
Girl i want to, get to know you
It's come from out of nowhere
Always changing, its in your head

Out of the blue, into the slipstream
Out of the blue, into the slipstream
Out of the blue, into the slipstream
Out of the blue, into the slipstream

In a free-fall out of the blue
In a dream we're out of the blue
Into the sunset out of the blue
Into the slipstream out of the blue

Yeah! out of the blue

Not feeling, broken hearted
Feeling just like when it started

Out of the blue, into the slipstream
Out of the blue, into the slipstream
Out of the blue, into the slipstream
Out of the blue, into the slipstream
Out of the blue, into the slipstream
Out of the blue, into the slipstream
Out of the blue, into the slipstream
Out of the blue, into the slipstream
