Alice Peacock, Do What I Can Do

I got up, I got dressed
Said I'll do my best
Said I'm up to the task
Guess that's all you can ask
But the question in my mind
Am I living my life right?
I do what I can do, what I can
Not everything in life
Goes according to my plan
But you can look me in the eye
And know that I will try
I tell you that it's true
I do what I can do
Well I thought that by now
I'd have it all figured out
But that's love and that's life
Every day's a surprise
I'm not perfect by all means
I'm just searching for that dream
