

10Hands, Craw

Crawl
into another head
stand up
take a look around - tell me what you see
crawl into another head
now, when I was a baby
I just couldn't understand
why everybody didn't think like I did
and it messed with my head
it took me years to overcome it
but I finally did
when I took a little trip in someone else's head
now, everybody tells me that I gotta have a worldview
well I listen very carefully
but I don't always know what to do
there's a lot of bogus causes
phony ideologies
but if you pick yourself the right one
you can set your spirit free
now, I am on the right side maybe
you are on the left side
and we're looking at the same thing
but we're looking at it differently
I guess I'm talking about perspective
but it's different from that
if you can walk around
with someone else's brain under your hat
it's a very simple reason
and a lot of people learn it
but a lot of people close their minds
to certain information
they are trying to avoid
any unwanted stimulation
that might make them reevaluate the values that they live by
