Babyface, Why Does It Hurt So Bad

Written by babyface (1995)
Performed by whitney houston

Why does it hurt so bad
Why do I feel so sad
Thought I was over you
But I keep crying
When I don't love you
So why do I hurt so bad
I thought I had let you go
So, why does it hurt me so
I gotta get you outta my head
It hurts so bad

My life's been better since the day you left boy
I must admit life's been kind to me

I went and did things I said I would do boy
I found someone who loves me for me
Haven't had much drama since the day that we split boy
My heart's never been more at ease
And when I think of all the things you put me thru
Leaving you has been the best thing for me

Hook

Never again that's what I said to myself
I never wanna feel your kinda pain again boy
Just when I think it's over
Just when I think it's thru
I find myself right back in love with you

Hook
