Alternative Allstars, Rock On

Alternative Allstars
Rock On
i can see you evry day
i can feel you in every way
i can't find peace of mind,
because you say, i'm no good for you
it's true, but still i say

would you like to be my girl?
would you like to rule my world?
would you like to be my girl?
rock on, rock on!
would you like to stay with me?
would you like to make me see?
would you like to be my girl?
rock on, rock on!

i'm not too smart i'm in your way
on the schoolyard you just look away
all the time you send me signs
and all they say is i'm no good for you
it's true, but still i say

would you like to be my girl?
would you like to rule my world?
would you like to be my girl?
rock on, rock on!
would you like to stay with me?
would you like to make me see?
would you like to be my girl?
rock on, rock on!

it took a gun to make you see
you wanna take a ride with me
and i swear you'll get back, on your feet
you can always count on me!

till the day you die!

would you like to be my girl
would you like to rule my world?
would you like to be my girl?
rock on, rock on!
rock on, rock on!
rock on, rock on!
rock on, rock on!
would you like to be my girl
would you like to rule my world?
would you like to stay with me?
would you like to make me see?
would you like to be my girl
would you like to rule my world?
would you like to stay with me?
would you like to make me see?

rock on, rock on!
rock on, rock on!
rock on, rock on!
rock on, rock on!
rock on, rock on!
rock on, rock on!
rock on, rock on!
rock on, rock on!
rock on!
