Solange Knowles, Lovers In The Parking Lot

Left your heart behind when I played us instead I?m up and done
See I?m just living on the back away from anyone
And maybe you love me but I just left and wanted to run
Back and forth behind and down when you were in and I was out
We chasing lovers in the front part of the parking lot
And baby I lost you but I was not to have you by far
Played around with your heart, now I?m playing around in the dark, wuhu
Played around with your heart, now I?m fam away apart, yeah
Played around with your heart, guessed I played myself from the start
Played around with your heart, where oh where?s the man
That lended in my hand when I take fall
I pushed your head over my pills until I pushed you far
And maybe I need you but you just won?t ever know, whoa

Back and forth behind and down when you were in and I was out
We chasing lovers in the front part of the parking lot

And baby I tell you but you forget to ever do cause
I played around with your heart, now I?m playing around in the dark, wuhu
Played around with your heart, now I?m fam away apart, yeah
Played around with your heart, guessed I played myself from the start
Played around with your heart, and I want you back
You back, you back, you back
I?ve been playing around with your heart too long, woho
And I now I played around and got caught
And now I play myself in the dark
Oh baby I?ve played around with your heart, and I?m playing around in the dark, wuhu
Played around with your heart, now I?m fam away apart, yeah
Played around with your heart, guessed I played myself from the start
Played around with your heart.
