Bif Naked, Abandonmen

Well you packed me away in the trunk of your car.
You drove me so fast and so far.
I tried to fight but its so hard.
The only momento is this scar.
[Chorus]
Where were you when i needed you?
Somethings missing, and I can't breathe.
Where were you? Where were you?
Somethings missing.
You abandoned me.
Oh when you look deep into my mind.
That is so tired and weak from this life.
On the verge of fear all the time.
I feel like you left me here to die.
[Chorus]
Shaking in my boots, you shook me down.
You really took me down.
Shaking my foundation, not to be found.
Never to be found.
Where were you? Where were you?
You abandoned me.
You abandoned me.
You abandoned me.
