Bif Naked, I Love Myself Today

You left me like a broken doll
In pieces as I took the fall
For you, you dumb chump
You left me free fallin like space junk
Burnin up in the atmosphere of life

Well I sound like a philosopher
But I'm a fool who's off her rocker
Cause I let you in my heart that one last time
I've had enough, made up my mind
I'm gonna get up, and out, and wild

Chorus:
I love myself today
Not like yesterday
I'm cool, I'm calm, I'm gonna be ok, uh huh
I love myself today
Not like yesterday
Take another look at me now
Cause it's your last look
Your last look forever

Well look at you,
Your all puffed up
In a big red truck
But your out of luck this time
oh well thats tough
Cause I'm on fire too hot to touch
With a chat room full of lovers
on the line
I'll stand right up
Spit shine my soul
I'm gonna be proud and loud and outta control

(Chorus)

Guitar Solo

I'm looking the mirror
And I like what I see
I've lost the fear and the horror
Thats been eatin at me
Cause bein with you was like a hangman's noose
I was livin my life in dead man's shoes
I've had enough, made up my mind
I'm gonna get up, and out, and wild

I love myself today
Not like yesterday
I'm cool, I'm calm, I'm gonna be ok, uh huh
I love myself today
Not like yesterday
Take another look at me now
Hey Hey Hey

I love myself today
Not like yesterday
Your dead, and gone, I'm gonna get my way, uh huh
I love myself today
Not like yesterday
Take another look at me now
Cause it's your last look
Your last look forever

I love myself today(x7)
Today, today.....
