# Sunrise Avenue, Something sweet

Come to me close to me
Park here beside me
Come to me leave the rest far behind
Give me a moment
I need to say something
Give me a moment
I need to say something sweet
Can you feel all the same things
That Im feeling
We are so ready to share all this
Give us a moment
We need to do something
Give us a moment
We need to do something sweet
I have all I need
I want nothing more
Far beyond from them, here with you
Would you stay
Blow the world away
This is all I want
All I ever had
You and I right here a little more
Here well stay
Something sweet is on the way
Beautiful, Powerful, feeling so strong
The stars close their eyes
They dont need to see
You are the reason
My whole inspiration
You are the reason
Were making something sweet
I have all I need
I want nothing more
Far beyond from them, here with you
Could you stay
Blow the world away
