Ash, I'd Give You Anything

The days seem the same and you feel like
You are losing your mind
I tasted the danger and went south of
Heaven tonight
I didn't mind she wasn't into letting go
I didn't mind 'cos she still was
Nothing like you

How can you lose when it's waiting for you
You should come on when
It's there for the takin
Waiting for you

The days seem the same and you feel like
You are losing your mind
I tasted the danger and went south of
Heaven tonight
I want to wake up in the morning
Feeling fine
Just like you I want to wake up
Feeling alright

How can you lose when it's waiting for you
You should come on when
It's there for the taking
Waiting for you
