Ashanti feat. Irv Gotti, Scared

Scared
We sitting here man
Digging on each other I'm feeling the shit out of you
You feeling the shit out of me
What you scared don't be scared
It was around 11 30 when I realized I miss you
Sitting at home all alone thinking what did I
Just do, feeling was strong coming on and I knew I wanted you
Something inside me held me back
Boy you got me scared of you
You got me afraid to let my love go
Is it my heart that I should follow
Got me afraid to let myself go
Got me scared of you
You got me afraid to let my love go
Is it my heart that I should follow
Got me afraid to let myself go
Got me scared of you
See,see what what it's like it's like we got to get over this hump ma
Until we get over this hump, it's going to be fucked up
If I let go I don't know if my heart will remain strong
Cause you the type that just might give
Right and get me strong I couldn't be just a girl
That your're seeing once a month cause if it
Goes down better believe I'm gonna be your only one

You got me afraid to let my love go
Is it my heart that I should follow
Got me afraid to let myself go
Got me scared of you
You got me afraid to let my love go
Is it my heart that I should follow
Got me afraid to let myself go
Got me scared of you
Should I let it go
Should I let it go no no no no
Should I let it go
Should I let it go no no
No no no no
Should I let it go
Should I let it go no no no no
Should I let it go
Should I let it go no no
No no no no
What's the problem ma
I can see it in ya eyes you want me just how I want you, you still
Scared, you still scared it's cool though

Be scared too, it's aight though, I'm a wait on you, just holla back aight
