# Blue System, Anything

There's something that I like to you tell you
Something between you and me
I would do anything, my baby
I would do anything for you
I give my heart, my life and maybe
Oh, please believe me that my love is true

I'm walking through - my heart is on fire
And you don't know - oh, I miss you so
I'm talking through my heart's desire
I'm telling you what love can do
Every night and every dream
I have a vision that I always see
Thousand lightyears - you away
I wanna hold you - baby stay
All I want is you and me
That's my only fantasy
The more I dream - the less I find
You're always, babe, in my heart
I would do anything, my baby
I would do anything for you
I give my heart, my life and maybe
Oh, please believe me that my love is true
I give you my heart - baby that's true
I only wanna be with you
I give you my love - and that's no lie
I only wanna, baby, one more try
Don't bring my heart through time and motion
Oh you don't know - oh, I miss you so
Don't break my heart, my true devotion
I'm telling you - love .....
Anytime and anywhere
I see your pictures - oh I swear
Tears may go and years may come
If you would go - I'm so alone
Love is a drama - can't you see
I own my dream - I never feel free
Lonely words - sense in my heart
Babe, please don't tear my heart
