The Offspring, Dividing By Zero

Oh take me higher all the way to the sun
Down to the wire fighting's only begun

It's closing in on you, closing in on you
Run from the fire raining down on you
It's closing in on you, closing in on you
Oh, and no way out oh oh

I will persevere, I will resist to hear
I will interfere
I'm not the only son, my will will be done
Omniscient begun

It's closing in on you, closing in on you
Run from the fire raining down on you
It's closing in on you, closing in on you
And no way out

Gonna make it through, gonna make it through
Divide by zero like a wrecking crew
Closing in on you, closing in on you oh
Oh, and no way out oh oh

Oh take me higher all the way to the sun

I will persevere
I will resist to hear
I will interfere

It's closing in on you, closing in on you
Run from the fire raining down on you
It's closing in on you, closing in on you
Oh, and no way out oh, oh

Gonna make it through, gonna make it through
Divide by zero like a wrecking crew
Closing in on you, closing in on you
Oh, and no way out oh oh
