The Subways, Burst

I'm in the backroom
Or such a cruelty that you put on me
Another reason, another chance to work your tease on me
Now, feel the fire, at your fingertips

You burst the light when you smile when you smile
I can't control myself, I'll wait forever just to see you shine
I can't control myself

I'm in the dead light, I'm not afraid
And I don't wanna stay in inside
For, for a reason
I make misstakes, but at least I fucking try

I'm in the backroom,
Or such a cruelty that you put on me
Another reason, another chance to work your tease on me
Now, feel the fire, at your fingertips

(x3)
You burst the light when you smile when you smile
I can't control myself, I'll wait forever just to see you shine
I can't control myself (/x3)
