The Verve, Sit And Wonder

I sit and wonder, I often wonder
I sit and wonder about the things she does
I sit and wonder, I often wonder,
Ive been waiting for this moment to come

And shes the teacher and I'm the pupil but I ain't learning anything at all
Now I'm falling into the black hole and I can barely feel the sun

Yeah I sit and wonder, I fall to pieces
Ive been waiting for her to come
A bed of roses, her cheeks like peaches,
Yeah I ain't going to wait no more,

Lord give me some light
Oh give the light
Yeah give me some light
Give me some light

The rights of passage, we all must take them
Yeah some are going to break in the storm
The door is open and I am reaching
Yeah it looks like right at the sun

Yeah give me some light
Give the light
Yeah give me some light
Give me some light.

Ive been havin' trouble in my head Lord, (Oh x 4)
I've been havin' Demons in my mind Lord, (Oh x 4)

Lord give me the light
Oh give me the light
Yeah give me some light
Give me some light

Ive been havin' trouble in my head Lord, (Oh x 4)
I've been havin' Demons in my mind Lord, (Oh x 4)
Somethings going wrong inside my head Lord, (Oh x 4)
Somethings going wrong inside my head Lord, (Oh x 4)

I could be searching all my life, searching all my life
Keep that candle on at night, candle on at night
Keep that candle on at night, candle on at night
I could be hurtin all the while, hurtin' all the while
Lord give me the light!
