Union J, Beethoven

It feels like whisky and butterfly's
Like midnight kisses in the morning light
We can up with you, here by my side
You leave me breathless, leave me breathless

I'm tasting on your skin, widling hands are only wanna start again
I see your name and it's a violin
You leave me breathless, leave me breathless

Tonight, tonight, tonight you are my music
Hold my heart like a
tonight, tonight I wanna loose it
I'd be the only soul, you'll ever know
Play you like a instrument, let me be your beethoven
Play you like a instrument, let me be your beethoven

It's like were cought up in a endless dream
The clocks don't tick when you hold on to me We're keeping the rhythm so perfectly
You leave me breathless, leave me breathless

Tonight, tonight, tonight you are my music
Hold my heart like a
tonight, tonight I wanna loose it
I'd be the only soul, you'll ever know
Play you like a instrument, let me be your beethoven
Play you like a instrument, let me be your beethoven

Cause Tonight, tonight, tonight you are my music
Hold my heart like a
tonight, tonight I wanna loose it
I'd be the only soul, you'll ever know
Play you like a instrument, let me be your beethoven
Play you like a instrument, let me be your beethoven
