Voivod, Quantum

high in his tower
power of powers
no one can reach him
none shall defeat him
down with the hated
quantum super state
quantum hyper phase
core the atom
configure the clone
undergo process
unforseen effect
alter the structure
shell of sub-matter
quantum super state
quantum hyper phase
quantum shadow-self
duplicate
replicate
multiply
subdivide
modulate
harmonize
quantum super state
quantum hyper phase
quantum shadow-self...
