Christina Aguilera, Dynamite

Dancing til the morning on a velvet sky
Racing to the top with golden rays of light
I never felt so free and yet so dangerous
The night was electronic painted red with lust

I move, you chase, we magnetize
A time I was exploding with no warning sign

[Chorurs]
Dynamite
Electrify me all night
Dynamite
Just give it to me, I won't bite
Dynamite
You make me feel, it's alright
Dynamite
Shine it on me

Caught up in this moment I was hypnotized
Shake this feeling got me paralyzed
I do, I don't, I think I might
My body was electric like a flashing light

Dynamite
Electrify me all night
Dynamite
Just give it to me, I won't bite
Dynamite
You make me feel, it's alright
Dynamite
Shine it on me

A change, a change is coming
A change, a change is coming

All around me that a change is bout to happen
The energy igniting has become my inspiration
If you take a deeper look you'll find the information
I'm only just a figment of controlled imagination

Dynamite
Electrify me all night
Dynamite
Just give it to me, I won't bite
Dynamite
You make me feel, it's alright
Dynamite
Shine it on me
